Tenth Infantry at Panama Sent  
to Front on Request of the  
State Department

### U. S. TROOPS IN NICARAGUA WILL SOON NUMBER 2000

State Department's Request  
Makes Precedent—Not Con-  
sidered an Unfriendly Act

WASHINGTON, Aug. 28.—At the State Department's request President Taft at Beverly today ordered the Tenth Infantry now stationed at Panama, to proceed to Corinto, Nicaragua, immediately.

Five hundred marines are now in Nicaragua. When the Tenth Infantry under Colonel Greene arrives the U. S. troops will total 2000.

The State Department's request that soldiers be sent, establishes a precedent. The request was made on the grounds that American assistance is necessary to maintain peace. Diplomats argue that this does not constitute an unfriendly act.

**Mena's Methods Barbarous**  
The men will sail for Corinto tonight on a Pacific mail vessel. They will be placed at the disposal of American Minister Weitzel.

The State Department this afternoon stated that the tactics of Rebel General Mena in Nicaragua are barbarous.

## MICHIGAN VOTES ARE INDIFFERENT

Less Than Third of Registered  
Vote Cast—Musselman, Watkins and Ferris For Governor

DETROIT, Mich., Aug. 28.—Voters balloted yesterday in state-wide primary for candidates for national, state, county and city offices.

The latest returns indicate that eight of the seventeen aldermen, accused of grafting, were renominated at yesterday's primaries.

Amos Musselman was nominated for the governorship by the Republicans, L. W. Watkins by the Progressives and Woodridge Ferris by the Democrats.

Less than one-third of the registered vote was cast. Returns from thirty-three counties indicate that Musselman's plurality was four thousand. The Progressive vote was small.

### OLIVE BUYERS BUSY

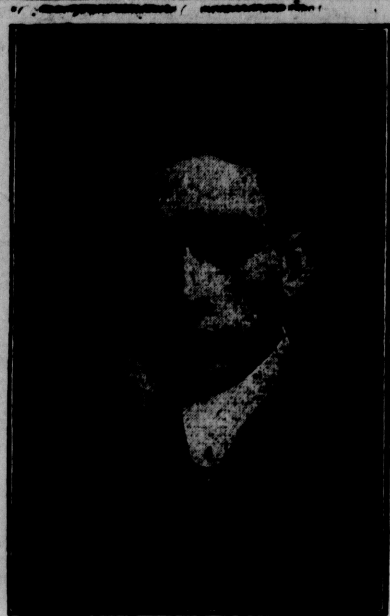

Winter's Output Likely to Go to \$200  
Per Ton owing to Shortage  
of the Crop

REDLANDS, Aug. 28.—The olive buyers are on the ground early this year and are making every effort to purchase the winter's output this month. A buyer from the Los Angeles Olive Growers' Association has been in Redlands and visited owners of olive groves for several miles around trying to purchase their fall crops. Olives were purchased last season for about \$150 per ton, but persons who are in a position to know say that the price will go to very short and bidding for it will be very short and bidding for it will be spirited.

### CATCHES 122,000 FLIES

LONG BEACH, Aug. 28.—John Mosher, 15 years old, makes claim to being the champion fly-catcher of Southern California and challenges any boy of his age to secure in two weeks, 122,000 house flies, the number caught by Mosher and for which he was presented with a handsome gold watch by a local jeweler.

Many of this number were caught in fly-traps made by the lad's grandfather, A. F. Kyser of Kansas. The young fly-catcher is the son of Mr. and Mrs. D. B. Mosher, 408 East State street.

GLENN L. MARTIN

## Glenn Martin Will Defend Aviation Cup

Glenn L. Martin of Santa Ana, has been officially designated as the aviator to defend the Gordon Bennett cup. This news came in a telegram received here today by his father, C. Y. Martin. It is the greatest honor of the year for an American aviator. The Gordon Bennett contest is the classiest of all aeronautical events. It is pulled off once a year, and the contest is held the succeeding year in the country whose representative wins.

The message received today stated that Illinois had turned over to Martin, defender of the cup, a \$15,000 aeroplane, which Martin will use in the contest.

## JOHN M. ESHLEMAN STRONGLY ENDORSES JOHN N. ANDERSON

Railroad Commission of the State of California,  
San Francisco, Cal. Aug. 14, 1912.

Hon. John N. Anderson,  
Santa Ana, California.

Dear Mr. Anderson:—I have intended to write you a letter for use in your campaign in Imperial county for some time, but have been absent on my vacation and so have not gotten around to it.

I believe that you are entitled to every Progressive vote in your district. From my intimate knowledge of your work in the California legislature, when you and I were both members of that body and when Progressive policies were not as popular as they are now, I know that you stand for the same things for which I have always stood and for which the Progressive administration of this state stands. While I know

## PROGRESSIVISM HAS COME TO STAY

So Frank B. Kellogg Told the  
American Bar Assn. in Talk  
on Problems of Day

### PEOPLE DEMAND DIRECT PART IN GOVERNMENT

Popular Reforms Not Dreams  
of Idealists But of the  
Public Conscience

MILWAUKEE, Wis., Aug. 28.—The new nationalism is the symbol of the evolution of the American people—part of a world movement to liberate the democracy—according to the belief expressed to the American Bar Association today by Frank B. Kellogg, the prosecutor who "trust busted" the Standard Oil Company, and a leading Roosevelt supporter.

Kellogg's address was a minute review of the world's unrest. "Conditions in America," he said, "have heretofore favored the economic philosophy of indifference, but recent years had produced a demand for more direct individual participation in government."

"I am an optimist," Kellogg declared. "I recognize the wisdom of our constitutional representative democracy and I believe the best way to preserve it is to welcome the changes and meet the problems and that the surest way to destroy our form of government and the safeguards of our constitutional liberty is to blind ourselves to the innovations. These movements are not the work of demagogues, nor of fads and jettison upon the tides of human history. They are movements of the public conscience and never have been and never will be checked or stopped."

"There is a widespread demand for the individual participation in the affairs of government. This is evidenced by the primary law, by the proposed constitutional amendment to elect United States senators by the direct vote of the people, by the initiative, the referendum and the recall. I do not believe that these institutions are a complete remedy for all the ill that human depravity inflicts on a people or for all the wrong in government or in our industrial and commercial conditions, nor, on the other hand, do I believe them to be the mere impractical theories of socialists and dreamers."

"The Australian ballot, the primary law, the referendum, the provision looking to the election of senators by the people and the recall are doubtless partly the result of abuse in government, national, state and municipal, and partly the natural growth and desire of the individual to participate more fully in public affairs as the result of a wider and more liberal education."

"A direct vote in the primary is an evidence of growth. The American people have made up their minds to try this system. It has its defects. All forms of government have. It brings the government nearer to the people; it removes suspicion and distrust and tends to efficiency. The primary is a safety valve."

"The initiative and referendum are a part of the same general movement in some respects of much less wisdom. The referendum, of course is the means by which we have always amended our constitution; but they involve a fundamental change in our system of government, one that should not lightly be adopted."

"There may be circumstances where the recall of officials may be applied with advantage, but where we have short elective terms it is my opinion that the wiser provision is for removal of an officer for misconduct in office only after an opportunity to be heard. In any event, care should be taken not to apply the recall to the judiciary, for it would (Concluded on Page Three)

your opponent by reputation as a man of integrity and financial standing, still he is and always has been aligned with the big interests of the state and against the Progressive cause. He stands for the Chicago steal and for the present President of the United States, both of which in my opinion, unfit him for Progressive support. I cannot too strongly urge upon the Progressives in your district that your previous record merits their unqualified support.

I wish I had an opportunity to go down into the district and talk to some of my friends personally, but I am kept busy continually trying to do my duty to the people of the state in the important position to which they have elected me.

With very best regards and hoping for your success, I am,  
Yours very truly,  
JOHN M. ESHLEMAN.

## TWO RESIGN AND THAT LEAVES BUT TWO

Advisory Committee Dwindles,  
Zimmerman Only Being Left  
on Active Duty

### STURGES WARRANT NOT YET MADE OUT

To Investigate Proposed Purchase of Seven Acres South  
of Gist Tract

The advisory committee that started out its semi-official life with five members has been reduced to two. O. M. Robbins resigned several months ago. Last night W. B. Tedford and H. T. Rutherford added their resignations to Robbins'. That leaves W. A. Zimmerman and J. N. Anderson still remaining on the committee. Anderson has practically retired from the committee and for several meetings past Zimmerman has been the sole representative of the committee at the meetings of the board of education.

The advisory committee was appointed last December previous to the day upon which the people of the city were called upon to vote \$200,000 for a polytechnic high school and \$25,000 for a new grammar school. There was never been a clear understanding as to the powers and rights of the advisory committee. Some of the school board have contended that the committee was empowered to give advice, which advice was in no way binding. Others have contended that the committee should vote with the school board upon any and all matters having to do with the planning for the new school buildings and the expenditure of the money raised by the bonds.

H. T. Rutherford has attended but few meetings of the school board, and since his work as a member of the board of freeholders commenced W. B. Tedford has been unable to be present at the school board meetings. The resignations presented last night were accepted.

**Consider Purchase**  
About a month ago, the school board by a vote of three to two expressed itself favorable to the purchase of five acres to the south of the fifteen acres bought from Mrs. F. M. Gist. It is now proposed to make the purchase seven acres instead of five.

President Duggan stated that if only five acres is taken there would be a strip on the south side between the school property and the extension of a street from the east, and he thought it would be better to buy all the land up to the proposed street. Mrs. Norman and Mrs. Smart have opposed the purchase of any more land, stating that "if the land is to be used for horticultural experiments land in some other part of the city ought to be bought. There was some talk, however, that the land would be used for an athletic field. In reply to the suggestion that the high school students could use the French street field for athletics, City Superintendent of Schools Cranston said that he thought that field was too far from the proposed polytechnic high school for the pupils to make good use of it.

After a discussion of the proposed purchase, it was decided to have the building and grounds committee, Mrs. Norman and H. G. Dean, and Superintendent Cranston make an investigation and report to the school board.

**Wants His Pay**  
President Duggan stated that the school board ought to proceed to pay Architect A. B. Sturges for the plans being used in the construction of the new grammar school on South Broadway. He said that he figured the total cost of the building would be \$25,556, to which would be added the architect's fee of three and a half per cent, amounting to \$894.46. The items of the cost are: General contract, \$21,499; plumbing, \$1800; wiring, \$187; heating and ventilating plant, \$2070. Duggan said that he thought the architect should be paid at once as he understood that other architects would not enter bids on Sept. 10 for the plans and specifications of the poly high unless Sturges received his money before then. Some of the other members of the school board failed to agree that it was necessary to pay Sturges at once, as it was not certain that the wiring cost might not be less, and the order for a warrant for Sturges was not forthcoming.

**Contract is Let**  
Last night all the bids for steam heating were rejected, and the bid of Thompson & Zimera of Los Angeles for a hot air heating plant was accepted. The bid was \$2070 without automatic control.

The Gist tract was rented to the Barnum & Bailey circus, which is to be here in September, for one day for \$50.

Water stock of the Jefferson school grounds was to be rented to E. C. H. Franzen for the next run.

It was ordered that the Fifth street

## THE 'NATION' OF ENGLAND SEES JUSTICE OF U. S. ATTITUDE

Upholds Right Of United States to Grant  
Freedom From Tolls to Her Coast-  
wise Shipping

LONDON, Aug. 28.—In the general chorus of denunciation of the United States over the Panama Canal bill, the Nation, one of the principal English weeklies, in a leading article of the issue of August 17, gives extended consideration to American rights under the Hay-Pauncefote treaty. It upholds the right of the United States to grant freedom from tolls for coastwise shipping, and contends this is purely a matter of domestic policy. The Nation says:

"America as a protectionist country has stringent navigation laws. No foreign ship is allowed to engage in coastwise traffic between American ports; moreover her courts have given the widest possible interpretation of the term coastwise traffic. Under American law a vessel plying between New York and San Francisco around Cape Horn is only coasting. They may touch at American ports in Hawaii, Porto Rico or even the Philippines without losing character. All this had an obvious bearing on the provisions of the Hay-Pauncefote treaty. Its provisions of equality of treatment could not apply to vessels engaged in coastwise traffic and using the canal because only American vessels are in fact so engaged. If the treaty meant Ameri-

can ships which enjoy a monopoly under its navigation laws, when plying around Cape Horn between the eastern and western coasts of America should lose the monopoly when they used the canal it should certainly have said so, but no one ever suggested the treaty suspends the operation of navigation laws. When coasting trade goes through the canal, the greater discrimination includes the less."

"It is true the exemption of American coastwise ships from tolls seems to throw an unfair burden on overseas trade, but provided the burden is evenly distributed on the ships of all countries there is no discrimination within the terms of the treaty."

In its issue of August 24, the Nation says:

"Since the amendment restricting the exemption from canal tolls to coastwise American shipping less is heard of America's indifference to treaty obligations. Indeed, it is now recognized that this charge of international immorality was raised by American conservatives not so much from zeal for the honor of America as from a desire to defeat the bill on other and more selfish grounds. Our own view is our diplomacy will be well advised not to dispute America's rights to exempt coastwise traffic."

**Miss Seely Resigns**  
The resignation of Miss Ora Seely as teacher of Latin in the high school was received and accepted, Miss Seely resigning on account of her health.

O. M. and Mac Robbins were heard in regard to proposed insurance of school buildings.

It was decided to advertise for sale the barn on the lot north of the Central school.

### WHITMAN CHARGES WALDO WITH CLOUD- ING GRAFT ISSUE

NEW YORK, Aug. 28.—District Attorney Whitman today denounced Police Commissioner Waldo, charging that Waldo published a list of gambling house owners intending to becloud the Rosenwald murder affair. Whitman tonight goes to Millbrook to confer with Judge Gott, assigned to conduct the graft hearings.

Commissioner Waldo refused to answer Whitman's charges, saying that he will publish a supplemental list of owners tonight.

### WOMAN'S ATHLETIC CLUB WILL ERECT 13-STORY BUILDING

LOS ANGELES, Aug. 28.—The Woman's Athletic Club of Los Angeles will have a thirteen-story home. At a meeting of the board of directors held yesterday, at the Globe Savings Bank, the site for a club-house submitted by the Los Angeles Investment Company was unanimously adopted and the skyscraper planned by the club will be under way within the next thirty days.

The site chosen is a plot 120 by 165 on Hill street fronting Central Park.

## PUBLIC GOOD PLACED ABOVE SALARY IN STATE SERVICE

(FROM THE SAN FRANCISCO BULLETIN)

In refreshing contrast with the old order is the new and growing attitude of officials toward the service of the public. The government of the state has gone a long way forward when a servant of the people will regard the good that he can accomplish as more important than the salary that goes with the job.

California has a number of men who have made a name for themselves in the public service, and who have shown that they are not content with the salary that goes with the job.

Nelles was the man for the job. Governor Johnson had recognized his ability and placed him on the Board of Control. But then just the right superintendent could not be found for Whittier. Governor Johnson was alive to the necessity of converting it from a training school for criminals to a real corrective institution.

He wanted the best official for that work. And he had to fall back on Nelles. Nelles unselfishly agreed, both because the public service demanded it and because he has his heart in the work of making good citizens of the "kid brother who has gotten in wrong," as he expresses it.

California can congratulate itself on having officials like Fred C. Nelles.

## FOREST FIRE LEAPED GAP

Devil's Canyon Now Menaces  
Los Angeles Water Supply;  
Is Wide-Sweeping

PASADENA, Aug. 28.—The Devil's Canyon fire has leaped the fire-gap in the pine flats and is eating into the Tejungas, the source of the Los Angeles water supply. Supervisor Charlton has arrived on the scene and is personally directing the fight. He has sent out orders to gather all available fighters.

### MEN EXHAUSTED IN FIGHT WITH FAR-SEEING FIRE

LOS ANGELES, Aug. 28.—Forest Supervisor Charlton has sent fifty additional fighters to Devil's Canyon where renewed winds are sweeping the forest fires toward the pine flats, and the west fork of San Gabriel Canyon, again endangering the San Gabriel watershed. Fifty fighters, exhausted, were brought to Los Angeles.

One hundred and seventy acres have been burned over since yesterday. The battle is raging in the opening of the west fork of the San Gabriel Canyon. Chief Ranger Brownlow this afternoon sent a telephone message for one hundred additional men. The wind continues to fan the flames.

### SUNDAY POSTOFFICE ORDER IS SLIGHTLY MODIFIED

WASHINGTON, Aug. 28.—The postal officials today issued orders slightly relaxing their recent order preventing Sunday deliveries in first and second class postoffices as provided in a rider to the postoffice appropriation bill.

The carrier or window deliveries are still forbidden but box-holders may have access to their boxes, according to the modified orders.

WASHINGTON, Aug. 28.—Alleging violation of the Hay-Pauncefote treaty, England, through Charge d'Affaires Mitchell Innes, today filed a formal protest against the Panama canal bill, passed at the session of Congress just closed.

He takes exception to the provision of free tolls for American coastwise vessels. The note announced that England plans to appear before The Hague Tribunal. More detailed objections are coming.

### STRATHCONA ASSERTS WRONG CONSTRUCTION OF TREATY

LONDON, Aug. 25.—Advising that there be no further public discussion regarding the Panama canal bill, pending further developments, Lord Strathcona today said:

"If the treaty had been passed as originally intended it would have benefited every nation trading on the West Coast. If the discriminating provision is operative, it will hamper all over-sea carriers. We regard as an absolute wrong that the present interpretation has been placed on the Hay-Pauncefote treaty."

### FRENCH 'TEMPS' SAYS TAFT'S DEFENSE PROVES BILL IS QUESTIONABLE

PARIS, Aug. 28.—"The only effect of President Taft's message in which he attempts to justify the Panama canal bill is to prove that the bill is a questionable one," is the verdict of the Temps.

The Temps hopes Americans will take advantage of the door left open for re-consideration of the matter by Congressman Sims' proposed bill repealing the provision of the Panama canal bill, providing for the freedom from tolls of American ships engaged in the coastwise trade.

## MORE LIGHT ON THE CHAPMAN PETITION

W. D. Clark, a printing office proprietor, and Joe Cornwell, a contracting painter, of Riverside, spent the day in Santa Ana today distributing Evans' literature and making a personal canvass for the Progressive candidate for Congress. They report strong Evans support among all classes.

Incidentally these gentlemen told of having signed that now famous Chapman "petition."

"We are both strong Roosevelt and Johnson men," said Mr. Clark, but when we signed the Chapman petition the issue was not clearly defined. We understood that Riverside was not to have any candidate for state senator, and when we were asked to sign for Mr. Chapman, an Orange county man, we did so without question."

"I am convinced," said Mr. Cornwell, "that over half of the names on that petition are Roosevelt men and will vote for Anderson. Either they were led to believe Mr. Chapman was a Progressive, or they didn't understand the issue at the time they signed."

## PROMINENT ORANGE GROWER MAKES STRONG PLEA FOR JOHN N. ANDERSON

J. H. Reed Gives Some Convincing Reasons Why Progressive Candidate Should be Nominated—His Good Record at Sacramento Before—What He Did For Riverside Citrus Station

FROM THE RIVERSIDE PRESS.

August 21, 1912.  
Editor Press: I noticed that the principal reason assigned why Mr. Chapman should be supported for senator, is that he is a prominent and successful orange grower. That Mr. Chapman has made a success of the honorable but somewhat exacting business of citrus fruit raising, is certainly greatly to his credit. But just how that especially fits him for a state senator is not so clear to my mind. I know several successful orange growers, excellent men, who would scarcely fill the bill for that place.

Now why not get right at the meat of this matter, without clouding it with platitudes. We are supposed to choose the man for our Sacramento work who is best fitted for that business. Did Mr. Chapman have an important position to fill and there were two applicants, one an honest, bright, good fellow, with many friends because of it, and had made a success in the grocery business, but knew nothing about orange growing; the other possibly not so brilliant, but an honest, hard worker, of proven capability, and with a successful experience in just the work the place called for, Mr. Chapman wouldn't hesitate long which to employ. He would not jeopardize the best interests of his orchards to favor a good fellow, however popular, while a well trained man for the work was available.

Were it wise for personalities, friendship, good fellowship to decide these matters, I certainly would support Mr. Chapman, because I know him to be of good business ability, a good fellow, actively and honestly interested in the betterment of his kind. Besides I confess I am proud of his achievements as an orange grower and promoter of the best interests of the great industry. While I have no intimate personal acquaintance with Mr. Anderson, in a general way I know of his high standing as a good citizen and capable, hardworking, painstaking business and professional man. But the point that decides the matter with me is Mr. Anderson's four years experience, which not only familiarized him with the duties of the position and the legislative needs of the district, but demonstrated his ability to serve his constituents intelligently, faithfully and efficiently.

To illustrate this allow me a single

instance. For a long time the need of a citrus experiment station to help solve the intricate orchard problems, had been severely felt. After several years of effort the state agricultural department finally granted our request. The next step was to secure an appropriation to establish and to equip the station, which proved a difficult matter. This came up when Mr. Anderson was in the Senate, and we appealed to him. He first carefully looked into the reasonableness of the demand. Convinced as to this, he, with Mr. Estudillo, our representative, took the matter up in a careful, painstaking way and after a long, hard fight, secured the appropriation. To these two men the great citrus industry of California is indebted for the establishment of this station which is to prove of vast value to the business, long after the successful individual growers are gone. And to Mr. Anderson, Riverside is probably indebted more than anyone else for its location here, since fully appreciating our local claims, being from another county, he could present them with more grace and greater force. So far as I can learn this is a fair example of the kind of work he did as senator, and of what may be expected if he is returned.

And in this connection I may say that it is being generally felt that the establishment of a demonstration school for portions of the year, in connection with the station, is necessary to secure from it the greatest benefit to the growers. And probably at the coming session an effort will be made to secure an appropriation for this purpose.

If so no other man is so well fitted to take this matter up successfully as Mr. Anderson.

One more point I think should be noticed. I cannot think Mr. Chapman, or any of his intelligent supporters, believe for a moment that Mr. Taft can be elected. By placing his influence with the Taft ticket he really by so much supports Wilson, who believes in free trade. I fall to see how he reconciles this with the best interests of the orange growers. In fact I really sympathize with Mr. Chapman in the dilemma he has placed himself, by posing as a Progressive while working in the interests of the Reactionaries.

## Anderson and Weisel Votes Aid Roosevelt

Editor Register:—Allow me to answer some questions through the columns of your paper that are being asked every day, to wit: why a vote in the September 3 primary election for John N. Anderson, candidate for state senator, and Hans V. Weisel for assemblyman, is a vote for Roosevelt and Johnson, and why a vote for C. C. Chapman and A. W. Rutan would be support for Taft and Sherman.

In answer, I quote from section 24, Primary Election Laws of the State of California:

"Sec. 24. 1. Party conventions of delegates chosen as hereinafter provided may be held in this state or any political subdivision thereof, for the purpose of promulgating platforms and transacting such other business of the party as is not inconsistent with the provisions of this act."

"2. The candidate for state officers, if any, except judicial and school officers, and the candidates for Senate and Assembly nominated by each political party at the primary election, and state senators of such political party whose term of office extends beyond the first Monday in January of the year next ensuing, shall meet at the state capital at 2 o'clock in the afternoon of the fourth Tuesday of September after the date on which any primary election is held preliminary to the general November election. They shall forthwith promulgate the state platform of their party, which said platform of each political party shall be framed at such time that it shall be made public not later than six o'clock in the afternoon of the following Thursday. They shall also proceed to elect a state central committee. . . . In each bissextile or leap year they shall also NOMINATE AS THE CANDIDATES OF THEIR PARTY AS MANY ELECTORS OF PRESIDENT AND VICE PRESIDENT OF THE UNITED STATES AS THE STATE IS THEN ENTITLED TO and it shall be the duty of the secretary of state to issue certificates of nomination to the electors so nominated, and to cause the names of such candidates for electors to be placed upon the ballots at the ensuing November election."

The above quotation shows conclusively that the legislative candidates nominated in the September 3 primary election by the Republican party in every senatorial and assembly district in the state will be the delegates to the state convention, who, and who alone select the names of the presidential electors that will appear on the official ballot to be voted on in the November election.

Both Anderson and Weisel, being pledged and avowed supporters of Theodore Roosevelt and Hiram W. Johnson for president and vice-president of the United States will support only such men for electors as are known to them to favor the election of the above-named presidential candidates. The same argument holds good in regard to Chapman and Rutan. They being avowed supporters of Taft and Sherman, if nominated they will vote for no man in the state convention for presidential elector who is not known to them to favor the election of Taft and Sherman, who are the great stand-pat re-

actionary candidates, men who were nominated by fraud, men of no higher ideals of civic righteousness than a common wad politician, as neither could stoop lower than to accept a nomination secured by fraud.

In conclusion, I urge that it is the bounden duty of every voter, whether man or woman, who is a true Progressive within the nation, not alone within the party, to vote for only such candidates as can and will further the election of Theodore Roosevelt and Hiram W. Johnson.

Very Respectfully,  
S. J. JACKMAN,  
President of the Roosevelt-Johnson Progressive Club of Santa Ana.

We, the undersigned Progressive Republicans of Orange County, hereby endorse the above statement and urge upon the Republican voters of said county to support the candidacy of Roosevelt and Johnson by voting for Anderson and Weisel.

### "NO BILL" AGAINST MRS. AKELEY, WIDOW OF LUMBER KING

MINNEAPOLIS, Aug. 28.—After considering the charge against Mrs. Clara Royce Akeley, the widow of the late Minneapolis lumber king, C. H. Akeley, the Hennepin County grand jury yesterday returned a verdict of "no bill."

Following her husband's death Mrs. Akeley went to Long Beach, California. It was alleged that she carried with her securities of the Akeley estate worth thousands of dollars. Sheriff Langum, en route to Long Beach for the woman, has been instructed to return.

### FUNGUS PARASITE FOUND

State Pathologist Has Discovered a Parasite That May Control the Black Scale

CARPENTERIA, Aug. 28.—Professor H. S. Fawcett, state pathologist, is making an interesting experiment in several of the Carpenteria citrus orchards. He was here a few days since with County Horticulturist Heers. He has discovered a fungus parasite which he believes will establish itself in the open and effectually control the black scale. The experiments in the laboratory have been highly successful. The parasite comes in from Florida and has never before been tried in California. The experimental work is being done on the ranches of J. R. Pithman, J. K. Catlin, J. R. Heath, T. O. McLean

# MAY EXPLAIN FINAL DECREE

Petition For Letters on Estate  
of Mrs. Bentz Was Filed  
Yesterday

Possibly the explanation for securing a final decree of divorce for Mrs. Minnie M. Bentz of Anaheim lies in the fact that it was desired to build every possible legal fence to save the woman's estate for her 16-year-old son, John L. Bentz.

Bentz and his wife separated several years ago. In 1906 Mrs. Bentz secured an interlocutory decree of divorce, which was not made final until the first of last week, the day after the woman died of burns received in an explosion of gasoline at her home. The day following Mrs. Bentz's attorneys, Tipton & Callor, applied for and

secured a final decree of divorce in favor of Mrs. Bentz.

Why a final decree should be sought after the woman's death was a mystery, and that it was a necessary step is still a doubtful point.

Yesterday letters of administration upon the woman's estate were petitioned for by Joseph Helmsen of Anaheim, who petitions upon the request of the heir and his grandmother, Mrs. C. E. Boring.

The estate is valued at \$8100, and consists of the home place at Anaheim. Since the property was accumulated since the interlocutory decree was granted it is thought unlikely that Bentz, even should he contest for a share of the property left by his wife, could get any of the estate. The son is the sole heir, and the court will be asked to distribute the property to him.

Tipton & Callor are attorneys for the petitioner.

## FISHING JOB ON ITS HANDS

FULLERTON, Aug. 28.—The Standard Oil Company has a fishing job in the well on the Stearns lease. The tools were lost about the time pumping of the well was to be started, and results from this wildcat have consequently not yet been definitely ascertained.

The rig is up for the well on the Anchor Petroleum lease, and the spudding in will probably take place in a day or two. This well is in wildcat territory in the Whittier district. The Standard oil recently took over the Anchor Petroleum's lease, on which one unsuccessful well was drilled.

The Central Oil Company is making good progress drilling five wells in the Whittier district. Work has been started on the deepening of one producer, which has been yielding only fifty barrels a day. The Union's Bastanchury well in the Fullerton district is expected to come in soon, and at latest reports was drilling through the sand. The company also has two wells in La Habra Valley near completion.

## IN THE JUSTICE COURT

# CANTEEN GETS HIM TROUBLE

Arrested After Leaving Field  
Where he Worked Four  
Days and Got \$2.43

H. Zever, a sugar beet laborer, had his share of trouble this morning. It came in bunches. He flew into a temper and made a settlement with an employer, but his temper failed to buy him anything in Justice Cox's court, where he was taken on a charge of stealing a canteen.

Zever had a long story to tell about a broken contract on the Cavanaugh lease, where a crop of sugar beets is being harvested. He says he and some other men were to work by the ton. Then they were put at it by the acre, and he got twisted up some way into a per diem deal. He decided he had all he wanted of the job, and this morning he told one of the Cavanaugh brothers he was going to quit. He says the contract stated that a man quitting on the job was to get only half his pay. Zever wanted all his pay, and he says he got it. He says he got angry and stormed around until he got a settlement. He drew \$2.43 for four days work.

Zever says he went to the edge of the field to get his coat. Hanging to a bush he found a canteen, the cover of which was ragged. He thought it was an abandoned canteen. He put some water in it and started for Santa Ana.

J. E. Cavanaugh heard that the man had departed with the canteen, and he came to town, swore to a complaint and pointed the man out on the street. Constable Jackson put him under arrest.

In court, Zever said he was ready to go to trial. Cavanaugh was sworn and testified. Zever was sworn and testified. The judge found Zever guilty of the charge.

Zever protested loudly. He declared he did not steal the canteen, he merely picked it up thinking it had been thrown away.

"The court has found you guilty," said Justice Cox. "Are you ready for judgment?"

"I am not guilty," replied Zever. "If you find me guilty I demand a jury trial." Zever was still protesting when Justice Cox set the time for judgment at 9 o'clock tomorrow morning.

Turned Him Loose

The preliminary examination of Trinidad Ramirez on a charge of burglarizing a Mexican camp at Huntington Beach this morning resulted in the dismissal of the case. Justice Cox found that there was not enough evidence to justify holding Ramirez for trial.

be destructive of its independence." Kellogg traced as another development of "unliberal democracy" the advance toward "paternal legislation." Eventually, he said, regulation of transportation lines would be "exclusively in the hands of the federal government."

"In breaking up the control of combinations," he said, "some injury must be done and some agitation hurtful to the commonwealth will occur, I believe absolutely in the soundness and in the economic necessity of the Standard Oil and Tobacco cases." Kellogg reviewed the results of the Standard Oil case as he saw them and denied that the increase in the value of stock of that corporation indicated that the decision was incomplete.

In the future, he said, congress may lay down a definite line of demarcation between good and bad combines; should license or give federal incorporation to inter-state corporations; establish a corporation commission, with supervisory powers; should impose restrictions of centralization of money; requiring corporations to use their surplus only for their own uses; prohibit consolidation of business and when the consolidated corporations are shown to control more than a certain percentage of their industry, but not control prices.

SALT LAKE CITY, Aug. 28.—Dr. David Starr Jordan, in an address before the Salt Lake Teachers' Institute yesterday, scored the standing armies of the world as being largely responsible for the spreading of degeneracy; suggested a course in sex hygiene as part of the curriculum of the public school and advocated the detention of persons tainted with blood diseases.

Dr. Jordan's address was delivered before a mixed audience of 600 teachers. The noted educator took advantage of the opportunity to declare that issues pertaining to the national health were of far more importance to the country at large than the issues to be decided at the coming Presidential election.

LONG BEACH, Aug. 28.—Though a city of only 23,000 inhabitants, Long Beach has entered the skyscraper class, permits having been recently issued by the building inspector for the erection of three buildings of ten stories or more in height, and an aggregate value of nearly \$500,000. One of these to be a ten-story steel and concrete apartment house on the corner of American and East Ocean avenue, to be erected at a cost of \$200,000 by a Los Angeles company, at the head of which is M. P. Thye of that city. The second is a ten-story, 145-room steel and concrete building to be erected by Franklin Robinson at the corner of Ocean avenue and Hart court, to cost about \$135,000. The third building of this class for which a permit has been issued is the nine-story Tinsler structure on East Ocean avenue, to cost \$125,000.

MILWAUKEE, Wis., Aug. 28.—William Morris, a negro, today resigned from the National Bar Association to compel the association to go on record on the negro question. The resignations of two other negroes who are causing a split are expected.

The association adopted a resolution accepting the resignation of Morris, around whom an anti-black fight centered, and commended Morris' "fine spirit." J. Hamilton Lewis of Chicago is preparing a resolution demanding the abolition of the life tenure of all Federal judges except those of the supreme bench. ## THREE CENTS DROP IN RATE

School Superintendent to Ask  
For Twenty-Four Cent Levy  
For the Schools

County Superintendent of Schools Mitchell today filed with the Board of Supervisors his statement of the financial needs of the schools of Orange county for the coming year.

Mitchell asks for a minimum of \$71,176 for the schools of the county for the year, and will ask that the school tax rate be fixed at twenty-four cents. This is a reduction of three cents from last year. The raise in the assessment will give as much money this year at twenty-four cents as was raised last year at twenty-seven cents. The daily average attendance for last year was 5552.

The recommendation for special taxes for common school districts follows:

Anaheim, \$6500; Bolsa, \$400; Buena Park, \$500; Delhi, \$1000; El Modena, \$1000; El Toro, \$300; Fairview, \$600; Fullerton, \$2000; Harper, \$800; Huntington Beach, \$2500; La Habra, \$700; Orange, \$2400; Peralta, \$300; Placentia, \$800; Randolph, \$700; Santa Ana, \$17,500; Tustin, \$1500; Yorba, \$250; Laora, \$500; Ocean View, \$1500; Yorba Linda, \$1000.

The recommendations for the high school districts are:

Anaheim high school, \$20,000; Fullerton Union High School, \$40,000; Huntington Beach Union High School, \$12,000; Orange Union High School, \$15,000; Santa Ana High School, \$35,000.

## ENTHUSIASM IS DISPLAYED

Weisel and Gates Spoke to a  
Good Sized Crowd at Anaheim Last Night

A good crowd of voters turned out last night to hear Hans V. Weisel and Lee C. Gates speak at the Anaheim Opera House. There was band music, and a demonstration to usher in the meeting.

Weisel as chairman made an introductory address in which he showed plainly that in the primaries Sept. 3 the only way to express preference for Roosevelt and Johnson is to vote for the candidates who represent Progressive principles. Those candidates are S. C. Evans for Congress, J. N. Anderson for State Senator and Hans V. Weisel for Assemblyman. Weisel declared that such bosses as Barnes and Penrose are lined up against Roosevelt. Weisel met a warm reception from his home people.

State Senator Gates of Los Angeles thrilled his audience by his mastery of address. He showed the futility of trying to get reform by remaining in the Republican party. He said a third party became necessary in order to break the grip of the interests upon the government.

## PENROSE WAS NEAR BLACKMAIL SAYS COL. ROOSEVELT

OYSTER BAY, Aug. 28.—That Penrose approached blackmail when he declared to Archbold in 1904 that the Standard Oil Company had better make an additional contribution to the Republican campaign fund if it wished to "avoid difficulties in certain quarters," was Roosevelt's declaration today. He added: "What is the difference in the Penrose statement and the attitude of the New York police in the graft scandal. If Penrose actually said that, he should be ousted from the Senate."

Roosevelt's letter to Senator Clapp denying John D. Archbold's testimony will be mailed Sunday.

## NUMBER OF WOMEN VOTERS IN UNITED STATES IS 1,346,925

WASHINGTON, Aug. 28.—Women vote in six states. The bureau of census has issued a statement showing that in these states—California, Colorado, Idaho, Utah, Washington and Wyoming—there are 1,346,925 females twenty-one years of age and over. Of this number, 654,784 are of native white parentage, and 333,925 of foreign white or mixed parentage. There are 327,682 foreign-born whites entitled to vote—13,488 negroes and 17,046 Indians, Chinese, Japanese and other Asiatics. These figures were gathered in 1910.

## SPECIAL SESSION SUGGESTION

The Santa Ana Blade asks the Riverside Press what it thinks of the plan suggested by the Bakersfield Echo, Congressman Smith's paper, for a special session of the legislature to amend the election laws so as to facilitate the placing of both Roosevelt and Taft electors on the ballots. The Press replies:

"The Press has no hesitation in answering this inquiry. The present law, as it is, is not a satisfactory one, as it was framed without anticipation of any such conditions as now exist; it will undoubtedly be amended at the next regular session of the legislature but meantime the Press sees no such urgent need of a new law as would justify a special session of the legislature.

"The issue as between Roosevelt and Taft is squarely before the Republican voters of the state at the coming primary election on September 3. In this county those who are for Roosevelt will vote for Anderson and Ellis, and those who are for Taft will vote for Chapman and Milliken.

"There has been no lack of publicity on both sides to make this clear. "Suppose Roosevelt wins in the primary contest, it will be an easy matter to get Taft electors on the ballot by petition; and the converse is true, if Taft wins. The Press has never been able to see that there were any insurmountable or serious obstacles in the way of getting electors on the ballots in this way.

"Party designations count for but little in this matter. If the people want to vote for Taft, they will vote for him no matter whether his electors go on the ballot as 'Republican,' 'Regular Republican,' 'Standpat,' or 'Independent.' And if they want to vote for Roosevelt, they will vote for him no matter whether his electors are designated as 'Republican,' 'Progressive,' or 'Bull Moose.'

"On many accounts the Press would prefer a straight contest between Progressive and Republican tickets; but as a practical question, it makes but very little difference how the two sets of electors are designated. As yet the Press claims to be a Republican paper, supporting the Progressive candidate, who represents what this paper believes to be the majority sentiment of the Republican party. Holding that view, it does no violence to our conscience to vote for Roosevelt electors in California under the Republican column. And we expect to have the pleasure of doing so."

## AN IMPORTANT POINT

In its references to the legislative candidates the Register has strongly urged upon Progressive Republicans the importance of supporting Anderson for the senate and Weisel for the assembly because, when nominated, they become delegates to the state convention and there vote for Roosevelt and Johnson presidential electors. And this journal would not abate one jot or little of its urgency in this respect. The point is vital and fundamental. But there is another reason why Progressives should

## That Chapman Petition

FROM THE RIVERSIDE PRESS

Riversiders who have been conversant with the argument used to induce voters to sign the petition requesting C. C. Chapman to run for the state senate will be interested in the following comment from the Santa Ana Register, published in Mr. Chapman's home county:

"The Taft papers in Riverside and Orange counties are publishing a long list of names of people who 'petitioned' C. C. Chapman to become a candidate for state senator; the idea, of course, being to impress voters with the tremendous popularity of Mr. Chapman and to convey the idea that there was a spontaneous and very general demand for his candidacy.

"That Mr. Chapman is a popular man, and deservedly so, no one who knows him will deny; and the Taft people were delighted and fortunate to secure him as a candidate. But that 'petition' means nothing and deceives nobody who is at all politically sophisticated. Mr. Chapman's supporters could easily have gotten three or four or even ten times as many names as the published list contains; and if Mr. Anderson's backers had cared to do so they could easily have gotten ten times as many signatures to a similar 'petition' in his behalf.

"How many names Mr. Chapman's 'petition' contained we do not know or care; its possibilities as to numbers were limited only by the number of voters he will get making a canvass for signatures. The same is true as to the possibilities in the way of signatures to a similar petition in Mr. Anderson's favor.

"Such political methods are so transparent and futile that it is surprising to see them employed by those who

ought to know better. But force of habit is strong. Stand-patism seems to be ingrained. A stand-patter is a stand-patter even in the use of political methods which are moss-grown and useless. However, the stand-pat politicians have successfully fooled the people so long and so successfully that they are to some extent justified in believing that they can continue to fool most of the people most of the time.

"The 'spontaneous demand' for Mr. Chapman's candidacy in this county was worked up by a very thorough and persistent canvass of voters and it took a lot of hard work to make the showing that was made. Moreover it is without question true that a good many of these signatures were secured by representing that Mr. Chapman is a Progressive. It was a little hard to make people believe this in view of the fact that the organized movement in behalf of Chapman in this county was headed by Frank A. Miller, local representative of the old railroad machine. A few voters, however, were not wise to the auspices under which the Chapman campaign was being launched and they signed his petition on the theory that he is in harmony with the Progressive movement in this state.

"Nothing can be said against Mr. Chapman as a man or a representative of the fruit interests; but in this campaign he stands for Taft, for the Reactionary forces in the state, for the old machine and for other things that the voters of this county have repudiated by overwhelming majorities. In view of this situation, they cannot consistently stand for Chapman now. The candidate who represents the policies the voters of this county have declared for is J. N. Anderson.

## JOHN N. ANDERSON CORRECTS POSSIBLE WRONG IMPRESSION THAT MAY HAVE BEEN GIVEN

Santa Ana, Cal., Aug. 27, 1912.

Editor Register:—The Evening Blade's report of the Evans reception held last Wednesday evening in this city, might create the impression that in my brief address on that occasion I reflected on the integrity of my worthy opponent, Mr. Chapman, in my references to the Riverside county "petition." I made no statement that could be so construed, and he is far from me to say anything unkind of Mr. Chapman personally. I took particular care in my criticism of said petition to add that I must assume that any irregularities connected with it were without Mr. Chapman's knowledge. The Blade's reporter seems not to have heard that statement.

We are engaged in a political battle wherein it is my duty and my purpose to take care of myself, and to invoke fair means in support of my political principles. It is my right and my duty to discuss and criticize, either in public address or in private conversation, the political attitude, and affiliations of my opponent and the methods employed to further his candidacy.

Speaking of the Riverside county "petition," I reminded my audience that it was circulated in but one of the counties of this senatorial district, and that while its preamble purported to be a request for Mr. Chapman to become a candidate, it WAS CIRCULATED AFTER THE ANNOUNCEMENT OF HIS CANDIDACY, and that, as is well known in Riverside county, it was largely signed in the early part of the campaign, the signatures being in a large measure procured by representing to voters that Mr. Chapman was a Progressive; whereas, he is not a Progressive, as no Republican is a Progressive unless he is a supporter of the Roosevelt cause and of Roosevelt and Johnson.

The Riverside Daily Press, in an editorial entitled, "Beware of Greeks Bearing Gifts," exposed the methods employed in getting signatures to the Chapman "petition." I read to my audience at the Evans meeting a letter received that day, unsolicited, from a former resident of Corona, of which letter the following is a copy.

Long Beach, Cal., Aug. 20, 1912.

John N. Anderson, Esq., Santa Ana, Calif.  
Dear Mr. Anderson:—In a recent issue of the Riverside Daily Press appeared an advertisement, in the form of a petition from quite a number of Riverside county electors, asking Mr. Chapman to become a candidate for state senator. My name was either forged or through error in some way placed among the Corona electors. I desire to state that I did not see said petition nor had any knowledge of it whatever until I saw it in the Press.

support Anderson and Weisel. Nobody who knows anything about politics can doubt that the next legislature will be overwhelmingly Progressive. Not only will most of the Republican members be Progressives, but most of the Democratic members also will be Progressives. The state administration, which will not be changed even in personnel is militantly Progressive. And the advantage of having our representatives in harmony with the legislative majority and the state administration cannot be over-estimated.

## SAID BY GOV. JOHNSON AT SAN FRANCISCO

It is of little consequence what shall be the outcome of this struggle. There can be only good of the contest that is on. We are fortunate indeed that the one man who can command the greatest audiences is carrying the message now and he is carrying a message that has been ours in

California, and that after all has for its greatest accomplishment the patriotism that we desire.

If we teach these things relating to little children and to women and to overburdened men and the broader sympathy due the human brotherhood, if we can make this nation realize that government has another duty and power and right than the exploitation of its people; if we can make them realize that a government founded on human sympathy, on human flesh and bone, is the government to be desired, then we have accomplished all that can be desired in any country.

Speaking of the Progressive convention at Chicago, Gov. Johnson said:

The most beautiful thing in that convention was when a woman, Jane Addams, mounted the platform and seconded the nomination of Theodore Roosevelt. Her speech itself was a gem, but there was a woman, the

most widely known in this land, whose work had been such as to make every man and woman in the country love her—there was she coming forward because at last there was an uplift in the country too.

I don't know what will transpire when I leave. I have received some disquieting news of what will be done as soon as I leave, as to this particular office. I can only leave to you what shall be done. I don't care for the office, but I do care for the opportunity to proselyte, to present our propaganda.

Mine eyes have seen the glory of the coming of the dawn. Again I see the principle on which this government was founded, the possibility that men may once more be truly equal; again I see the humanizing things that enable human character.

So it is that in this struggle I'm glad to go forth and give all my virility if I can make all understand the necessity in the nation of doing these things. I'm delighted that the opportunity comes in behalf of a noble cause. And if we don't win, at least before the fight is over, we shall make our opponents pay us a tribute such as Kipling's British soldier paid to his Sudanese foe:

Will Send Finest Ship and Royal Prince to Join in Canal Fair Naval Review

**COPENHAGEN, Denmark, Aug. 28.**—A royal prince and the finest ship in the Danish navy will represent this nation at the great naval review which is to open the Panama Canal. It is understood that Prince Axel, son of Prince Waldemar, will be the representative of the royal house of Denmark. The young Prince is an enthusiastic bird man, maintaining his own flying suite and hangars, and he speaks English very fluently.

The warship chosen is the Valkyrie, a handsome and formidable cruiser. She made a cruise a couple of years ago under the command of Prince Waldemar, "showing the flag" in numerous foreign ports.

AN OPEN LETTER FROM

JOHN N. ANDERSON

To My Personal Friends, Especially, and to all supporters of My Candidacy:

I write this word to make a special request of you, to ask as a personal favor to me, that you support the candidacy of my running mate, Hans V. Weisel, of Anaheim.

There is every reason in the world, personally as well as politically, why Mr. Weisel should receive every vote that I receive. He is an earnest, able young man and will make a fine assemblyman; and he is one of the most devoted and efficient Progressive Republicans in the county.

Yours for clean, able public service in state and nation.

JOHN N. ANDERSON.

Says American Talk Poetical; Classics "Beaten to Frazzle," Says Swedish Professor

Los Angeles Examiner: The good old English language as Shakespeare and Addison spoke it is fading away, according to Dr. G. Hanorf, professor of languages at the University of Copenhagen, who is at the Hotel Hayward.

In the place of the copperplate verbiage, says the professor, good, hearty, straight-from-the-shoulder slang is the order.

"The Americans have substituted a language of their own in place of English," says Professor Hanorf. "This so-called slang is more poetical, picturesque and serviceable than the English of Shakespeare's time. The American language and the American ragtime have the classics—er—how do you say it here—beaten to a frazzle—yes."

## A MORNING WEDDING

Handsome Southern Girl Wedded to Well Known Business Man of Santa Ana

A wedding of much interest to Santa Ana and Orange people was celebrated this morning at 8:30 o'clock at the residence of the bride's uncle and aunt, Mr. and Mrs. J. R. Smith, of 1608 North Main street. The charming bride was Miss Lena Lillian Nailer of McGregor, Texas, and the bridegroom was George Swift Harper, formerly residing in Orange, but now of Santa Ana.

The spacious hallways and rooms of the Smith home were beautifully adorned for the pretty wedding, carnations and greenery being profusely employed in the decorative scheme. Doors, windows and stairway were embellished with greenery, carnations of a delicate pink dotting the lace-like sprays of the massed fern. The great fireplace in the living room was banked with asparagus and sword ferns forming a bow-like arrangement that was a most effective background for the bride party. The radiance of electric lights in the darkened rooms made the handsome decorations particularly effective. Pink carnations studded a white carnation-lined wedding veil of ferns that swung from an immense heart of greenery in front of the bow-like background. A white dove perched above the wedding veil, and under these symbols of love and peace stood the stalwart groom and graceful bride as they uttered the vows that united them for life. The ceremony was read by Rev. Dr. Ryland of Hollywood.

The bride was attired in an exquisite creation of Swedish satin, pearl trimmed and adorned with real lace and dughese shadow lace. The elegant high-necked gown was made en traine and the Marie Antoinette wedding veil was caught with orange blossoms. The bride, who is a petite and beautiful girl of the brunette type, carried a shower bouquet of bride's roses and a dainty handkerchief that had been carried by her mother at her wedding. ## RIVERSIDE WOMEN TRY OUT VIEWS OF WOULD-BE SENATORS

The Woman's Progressive League of Riverside today was hostess at a luncheon at the Y.M.C.A. cafeteria in that city, at which the guests were the candidates of different political faiths for the state senate from the Thirty-ninth senatorial district. The women desired to hear the views of the candidates on subjects of special interest to women, and such subjects as "Practical Methods of Controlling the Liquor Traffic" and others relating to the status of women and girls, were assigned to the speakers. Mrs. H. A. Atwood presided at the luncheon.

Former State Senator John N. Anderson of Santa Ana, Progressive candidate, and Louis Paul Hart of Huntington Beach, Democratic candidate, were among those invited to speak.

bridesmaid was picturesque in a gown of blue crepe de chine embroidery trimmed, and carried pink roses.

Miss Leslie Smith, charmingly gowned in pink charmeuse silk, was ring bearer, carrying the golden casket in a lovely pink lily. Little Miss Barton Smith, also attired in dainty pink charmeuse, was the flower girl. The groom was attended by his brother, Lacy Harper.

The bride party entered the parlors to the strains of Mendelssohn's Wedding March played by Miss Hazel Stocklager. "Oh Promise Me," was sung by Ben Blesland in his clear tenor. The bride's bouquet, thrown from a balcony after the ceremony, was caught by Misses Hazel Stocklager and Caroline Haughton, and divided between them.

Following congratulations lovingly given by the small wedding company consisting of the close friends of the principals, Mr. and Mrs. Harper donned khaki suits and started on a motor trip to Bear Valley where they will spend their honeymoon close to nature's heart. They will camp out, and will fish and hunt. Mrs. Harper took her gun with her that she may join her husband in his hunting expeditions. They will spend a fortnight in this romantic way, before returning to Santa Ana where they will reside at 406 South Birch street.

They will be warmly welcomed here where Mr. Harper is well known as a business man of sterling character. He has long been identified with the Harper Packing Company at Orange, where he was known as a public spirited citizen, greatly interested in athletics and Y. M. C. A. activities. He is the owner of the Santa Ana Harper garage, formerly the Martin garage. Mrs. Harper is a charming Southern girl who has for the past year been director of the Conservatory of Mu-

sis at Orange. Vivacious and attractive, she will speedily win friends in her new home.

Mr. and Mrs. Harper were the recipients of many elegant wedding gifts from friends in California and the South.

Normal Opening Put Off Announcement has been made that the Los Angeles State Normal, which was to have opened its fall term September 9, will not do so until September 16.

The reasons given are that many of the teachers are in New York attending institutions, while others are studying abroad, and will not be able to reach Los Angeles in time for the earlier date.

Dr. J. F. Millsbaugh, the head of the institution, will attend the meeting of the State Board of Education to be held in Sacramento during the week of September 2, until September 9, but will be here for the opening of the fall term.

## BOY HAS NARROW ESCAPE FROM INJURY

Orange News: Franklin Shriver, of East Collins avenue, had a narrow escape from serious injury yesterday. While climbing on a load of hay a bale turned under him and he fell between the horses and the wagon. The team was frightened by the fall and started up, one of the horses kicking him in the back. The wheels of the load passed over his ankle and one of his thumbs, but aside from severe bruises he came out of the dangerous situation without serious harm. The team was stopped by Mr. and Mrs. Shriver before it was fairly started and a runaway was averted.

SUGAR FACTORY POSSIBLE

Million Dollar Sugar Plant Is Promised If Yuma Valley Farmers Will Co-operate

CALEXICO, Aug. 28.—The promise of the erection of a million dollar sugar factory in Yuma valley is assuming definite shape and proportions. C. P. Cooper and his son-in-law, S. S. Kelley, have been working on the matter for some time. They grew several acres of sugar beets this year and shipped them to Glendale. The crop turned out well and the sugar contained in the beets ran over 19 per cent. The Glendale people are so well satisfied with the Yuma sugar beets that they have made a proposition, through Kelley & Cooper, that if the farmers will grow from 500 to 1000 acres of beets next year, under contract to them, and the beets turn out well, that the year following they will install a million dollar sugar factory in the Yuma valley.

NEW SCHOOL RULING

SACRAMENTO, Aug. 28.—A ruling was handed down yesterday by Superintendent Hyatt of the State School Department to the effect that a teacher having a certificate from an unaccredited normal in the East is not entitled to a California certificate, notwithstanding she may have secured a local certificate in any county. The ruling was made in the case of a teacher who had graduated from the Buffalo normal school in 1891, when that school was not accredited until 1900. She secured her certificate to teach in Mariposa county and now wants to teach in Ventura, but has been refused.

## AMUSEMENTS

## FINE PRODUCTION SATURDAY NIGHT

When George Barr McCutcheon's "Beverly" is presented at the Grand Opera House on Saturday night, Aug. 31, local play-goers will have an opportunity of enjoying one of the most delightful romantic plays of a decade, which has been favorably received in Buffalo, Toronto, Cincinnati, Pittsburg and Chicago, and is now en route to New York for an extended engagement at a leading Broadway theater. "Beverly" is a dramatization of Mr. McCutcheon's story "Beverly of Graustark," by Robert M. Baker, who has adhered very closely to the story contained in the book with the result that he has succeeded admirably in retaining the atmosphere of the delightful little principal play.

## CALIFORNIA WILL LEAD

Californian Tells East of Great Advance State Has Made in Recent Years

WASHINGTON, Aug. 28.—Frank Bacon of Mountain View, Cal., who is in this city, said yesterday:

"In the last ten years California has jumped from the sixteenth state in the Union to the ninth and in another ten years it will be third and probably second. We have everything any other state has and many things no other state has, and our agriculture, mining and manufacturing industries are taking giant strides in the world's commerce."

"We have been handicapped in getting our goods to market and freight rates have made competition with the East almost impossible, but when the Panama Canal is opened you will see the most wonderful advance any state ever has made."

Mr. Bacon is a fruit grower in Santa Clara Valley.

Fall term begins Sept. 2nd at Orange County Business College.

## HART REPUDIATES THE "TIMES" LIE ON STEELE FINLEY

Steele Finley, Esq., Santa Ana, Calif. Friend Finley.—My attention was this morning called to a paragraph in the "Political Watchtower" column of the Los Angeles "Times," stating that you had pledged your support to me in the senatorial race in this district. I was surprised to see it. You have certainly made no such pledge to me. I understand that you are supporting the candidacy of Mr. John N. Anderson for the position.

Cordially yours, LOUIS PAUL HART.

## JUDGE RIVES HAS VIEWS OF WISDOM

Would Give Women Equal  
Rights of Inheritance With  
Those of Men

LOS ANGELES, Aug. 23.—Giving women equal rights with men in the matter of inheritance was yesterday advocated by Judge James C. Rives of the probate department of the superior court. The judge, who was sitting in his private office, evolving in his mind a number of proposed legislative reforms, stated that he considered the present law governing inheritance unfair.

"By the present law," he said, "when a man dies only half of his estate goes to his widow and the remainder to his children. If the wife dies the whole of her estate goes to the husband, as the head of the family, without administration. It seems to me that the law governing this should not show discrimination."

The judge then stated that another question vital to woman and that was vexatious to him was in regard to the custody of the children.

"Where a man and a wife cannot get along and it comes to the matter of the custody of the children, there should be a plan whereby the court could decide this question without the couple's having to go to the divorce courts. I am endeavoring to devise some simple method to judiciously dispose of such cases. Even the appointing of a guardian doesn't settle the matter."

Fall term begins Sept. 2nd at Orange County Business College.

## PARALYSIS CASES DECREASE IN CITY

Los Angeles Physicians Find  
Epidemic Growing Less—  
Few New Cases Reported

Los Angeles Examiner: The committee of ten physicians appointed by the City Council to study the question of infantile paralysis met last night in the Council chambers.

The meeting, which was conducted by Chairman Dr. F. S. Bernard, was marked by opinions and discussions by physicians and little action was taken. On the motion of Dr. J. P. Dougall it was decided that the committee investigate the cases now in quarantine to determine whether or not all are paralysis cases. Dr. Dougall also pointed out that the first duty of the physicians' committee is to relieve all unreasonable fear in the mind of the public as to the communicability of the disease.

The report of the City Health Department showing the number of new cases and cases in quarantine for each week since June 1 was read. The report for the last week shows only fifty-one cases in quarantine, the lowest record since July 6, when the disease began to spread. Only two new cases have been reported this week and it is the belief of the physicians attending last night's meeting that the epidemic is practically over.

The physicians on the committee are: F. S. Bernard, J. W. Geter, L. J. Huff, C. B. Nichols, J. P. Dougall, F. S. Merrill, H. C. McNeill, J. N. Giffen and C. H. Miller.

## A TRI-COUNTIES Y.M.C.A. INSTITUTE

Orange, San Bernardino and  
Ventura County Workers  
Meet at Catalina

With the breaking up of the Y.M.C.A. boys' camp yesterday at White's Landing, Catalina, the site will be occupied by the second annual County Work Institute, which will be in session from today until Sept. 1.

This institute is held under the direction of the county committees of Orange, Ventura and San Bernardino counties and the state executive committee of the Young Men's Christian Associations.

The purpose of the institute is to train for more effective service, members of county committees, boards of directors, and local committeemen, employed men, leaders of local groups, scout masters, and men who are working with young men or boys in other organizations.

The program includes consideration of such topics as "Prayer an Essential in Leadership," "A Leader and His Bible," "Study of a Field," "A County-wide Movement," "Taking Men Alive," "Education in Health and Sexual Hygiene," "Existing and Training Leaders," "Religious Life of the Boy," and others of equal value and worth to leaders of boys and young men.

While the primal object of the institute is not to offer men an opportunity for recreation, a large portion of each day will be devoted to games, swimming, boating, tramping, etc. Those attending the sessions will sleep in tents, and the meetings will be held either in tents or in the open air.

## OIL SHIP BURNED IN AN EXPLOSION

GAVIOTA, Cal., Aug. 23.—Marine Manager Walter Buck of the Associated Oil Company, today began an investigation of the cause of the explosion destroying the Rosecrans here last night. He is probing the report that a neglected tank became gas filled. The hulk, though burned to the water line is still afloat. The tug Navigator of San Francisco is due at noon and Buck may decide to tow the hulk to San Francisco and attempt to rebuild it for a barge.

**Ship Was Hoodooed**  
GAVIOTA, Cal., Aug. 23.—Fire and explosions of oil in her fuel tanks and hold late last night destroyed the ill-starred oil tank steamer Rosecrans, "jinx" ship of the Pacific merchantmen, and caused the probable fatal injury of one sailor and imperiled forty-one others. The vessel burned within a stone's throw of the place where, last March, she was dashed on the rocks, with the result that two members of her crew were lost and she was sent to dry dock at San Francisco to undergo repairs.

The Rosecrans was taking on a load of oil for Redondo, having arrived in port at 3 o'clock, when the explosion destroyed her tanks and started a fire that soon spread from bow to stern. The explosion that followed threw a dozen seamen in the ocean.

The possible victim of the destruction of the vessel is a seaman, Oscar Keelsland, aged 25, of San Francisco, who had both arms broken and his body pierced by a hole pin when he jumped into a small boat. He was removed to a hospital at Santa Barbara and it is not believed he can live.

## GOV. WEST AND GRAND JURY HALTED BY EVANS' DELAY

PORTLAND, Ore., Aug. 23.—Impatient because of the failure of Assistant Federal District Attorney Walter Evans to accept or decline his appointment as successor to District Attorney Cameron of Multnomah County, Governor West declared that unless Evans reaches a decision tonight, he will make another appointment.

Evans was named following Governor West's removal of Cameron because the latter had not aided in the anti-vice campaign because of which the Governor moved the executive offices from Salem to Portland. West declares an immediate decision is necessary because he intends to start grand jury proceedings tomorrow. Evans maintains he is unable to give an answer until Federal District Attorney McCourt returns to Portland.

Cameron maintains his removal was illegal and promises fight. The grand jury met today and recessed immediately, unable to proceed until the tangles are straightened out.

**Salt Lake Ready With

## Six Reasons Why You Should Do Business With This Bank

1. Depositing your money in bank makes it absolutely safe from loss by robbers, fire or accident.
2. With a bank account you can pay your bills by check. The canceled check is a legal receipt for payment. You cannot be made to pay the bill twice.
3. A check book makes all your money available at any moment, and you are never bothered about making change.
4. The bank keeps your books. Every deposit and the amount of the checks you draw are carefully entered in your pass book by expert bookkeepers, so that you know where you stand at the end of the month.
5. Nearly every man needs to borrow money at some time. If you are well known at the bank, through your bank account, it is easy to get accommodation.
6. Every check you write is an advertisement of your good business habits and solid worth, which has the effect of raising you in the general esteem of your neighbors.

Any one of the above reasons is of itself sufficient to influence you to open a bank account. It will only take a short acquaintance with this bank, and the facilities it offers, to convince you that six reasons are only a few of many more why you should make it your financial home.

Now is the time to begin the practice of these most approved business methods, and to make this bank what we want it to be—

### LOS ANGELES PRODUCE MARKET

Light receipts caused an advance of 1 cent in the price of fresh ranch lemons yesterday. Shipments have averaged but little more than 100 cases, and 200 are needed to supply the demand. Canned ranch lemons are now bringing 34 cents, and case-count 30 cents a dozen. The receipts yesterday were 113 cases.

Prices on butter and cheese are high and firm. Of the former 80,832 pounds were received yesterday, and of the latter 17,427 pounds. Prices in the North are steady.

Southern California pears are now received in increasing quantities, most of the shipments coming from the Antelope Valley. In one day seven carloads were received from that district from one firm, and another firm is bringing in carload lots every day. The Antelope Valley section is practically a new factor in the pear business and a very large crop was harvested this year. Apricots are almost out of the market, only cold storage fruit remaining, and it is estimated that practically all of this will be cleaned up in a few days.

Plums are also getting quite scarce, although large quantities of Satsumas are received from Burbank, Glendale and other places near by.

Tomatoes are also very scarce and are selling at 50 to 75 cents a box, as compared with the previous prices of 35 to 50 cents. On the other hand, grapes are quite plentiful, as are casahuate, but cantaloupe shipments are small at present and prices on this melon are quoted at a little higher figure than heretofore.

Poultry is reported scarce with good demand. Prices remain pretty steady.

The arrivals of potatoes and onions yesterday were 1489 sacks and five sacks, respectively.

## DO YOU KNOW ABOUT

## Hemet

## AND SAN JACINTO?

We can tell you a good deal, and we would be glad to show you more. There are great opportunities there. We have good alfalfa land from \$65 to \$150 per acre, where plenty of water can be developed in well not over 125 feet deep, with 20 to 30 feet of lift. This is hard to beat in Southern California. Lots of good fruit ranches, too.

Come and see us about it.

## RED APPLES

Are more certain profit makers than even Valencia oranges. They are less expensive to plant and care for, and the land costs less than good orange land. They are easier marketed, and have a longer marketing season, and an almost unlimited market here in Southern California.

We have the place where the very best RED APPLES grow, where the climate cannot be beaten, even in this country of good climate, where pleasant breezes blow all summer, with an altitude of 2500 to 3000 feet above the sea. There is no excessive heat, bright, crisp and bracing air is the rule.

## The Yucaipa Valley

Offers the finest opportunities to be had anywhere. Land reasonable, water plenty and of the best quality, only nine miles from Redlands. No experience for we now have plenty of both old and young orchards to demonstrate our claim. We would like to talk this over with you, then show you the land. "Seeing is believing."

## Summer Goods Must Surrender--Fall Merchandise Is Arriving SEBASTIAN'S 7th. Annual

**SUMMER  
SALE**

Practically Every Department in the House Enters This Two Weeks of Strenuous Merchandising.

Half prices—near half—less than half. Yes—down to a mere fraction of the former values go the deep cut prices. We are crossing the bridge from summer to fall and the attack on summer goods is determined. The army of brooms come with a mighty sweep to move all before them. They are the advance guard of fall, and summer goods must give way before them.

Clean Sweep is the thought uppermost, no matter what the cost. Indeed, prices have been cut so deeply, in many cases, clearance cannot help but be absolute. Two weeks beginning Monday. Two weeks in which every day will be of importance. We have active plans mapped out, the basis of which is deep cut prices.

**Sale Begins Thursday Morning, August 29th  
At 7:30 and Continues for Two Weeks**
